Selective racking

*Access all pallets
all the time.*

Selective racking.

Your business:

You have a lot of different products that go to a lot of different places. Orders are complex and involve a mix of different SKUs. Direct and rapid access to all pallets is a must while low cost is also a priority.

Our solution:

Selective pallet racking is very cost-effective, providing high capacity storage and easy access to all pallets. Simple to install, selective pallet racking is infinitely adjustable and easy to customise. Selective pallet racking is serviced by conventional forklift trucks.

The vital statistics:

Average locations used	95%
Immediate accessibility	100%
Stock rotation	Good
Average floor area by pallet position (sqm)	0.85

*Easy to install.
Easy to adjust.
Easy to customise.*

Businesses choose selective pallet racking more than any other system.

Selective racking can be used for storing pallets, drums, carpet or any other product. Infinitely adjustable, it offers a wide range of options and components to accommodate specialised needs.

Pallets can be located, accessed and moved individually, allowing rapid handling of almost all types of palletised goods.

Tested to the highest international standards.
